

Alumni Testimonials

The teachers left an indelible mark on me, each contributing uniquely to my growth. While its challenging to enumerate them all without risking omission, I am compelled to highlight their exceptional teaching methods. One particular instance stands out vividly in my mind—the unconventional approach to teaching trigonometry by our math teacher. Rather than confining us to textbooks and lectures, they encouraged hands-on learning. I recall a memorable experiment where my friend and I were tasked with measuring the height of the school building using nothing but a protractor and a scale. Initially clueless, we embarked on the challenge with enthusiasm. We measured distances, marked angles, and, with each step, discovered the practical application of mathematical concepts. It was a revelatory experience, transforming abstract theory into tangible knowledge.

Made me realise the importance of good teachers, they push you when needed, hold your hand when overwhelmed, scold you when you stray and most importantly believe in the goodness left in you, when all goes away. The School isn't just a building, every brick contains the soul and memory of every student and staff member, that spent the most crucial years of their lives there.

Dr. Sreya Subramanyam, Batch: 2015
MBBS, MUHS, Nashik
Gold medallist in Forensic Medicine and Toxicology and General Medicine
Silver medallist in Community Medicine

My School and all my teachers have had a major role in shaping me into who I am today. NLDHS helped me not only to build a strong academic foundation but also inculcated in me the desire to keep learning. I have made some of the most cherished memories of my life during the School exhibition.

Dr. Ratika Mathur, Batch: 2010
MBBS, MD Anaesthesiology, Fellowship in Paediatric Anaesthesiology.

My School offered a vibrant and balanced ecosystem that promoted all-round growth. A carefully crafted curriculum, paired with world-class infrastructure, dedicated faculty, and a culture of academic rigor prepared me to excel. Regular mock exams and targeted preparation for Boards helped me emerge as the School's top-performing student in the 2009 Board exams, and in achieving academic success thereafter.
